AND ADJUSTABLE HEADBAND

Read instructions prior to use. Refer to the instructions regarding any questions about the use of your HybridLight NAV.

USING YOUR HybridLight NAV HEADLAMP

Operating Your Light

- Press the Power Button to turn the light on/off. Ensure that the Cutoff Switch is oriented to the left.
- Hold the Power Button while the light is on to alternate to the next LED Color
 - o White LED Mode - 1st click High, 2nd click Low.
 - o Red LED Mode - 1st click High, 2nd click Low.
 - o Green LED Mode - 1st click High, 2nd click Low.

NOTE: The light will shine the LED Color that was last used when powering up.

- Red Strobe Mode: To enable the Red Strobe Mode, double-click the On/Off switch to enable.
- Switch Lock Mode: Position the Cutoff Switch on the back of the headlamp to the right in order to lock the NAV in off position. This mode will prevent the NAV from turning on by mistake (Example: in a backpack or during travel).

Charging Your Light

When the light is charging the indicator light will show a red light. The indicator will turn green when a full charge is achieved. After initially removing the product from its packaging, charge it fully via the Micro USB Cord. Leaving your headlamp charging for extended periods of time will not harm the rechargeable cell.

How to charge your NAV

1. Micro USB port: Insert the micro USB cable into the port, and insert the other end into any standard USB charger or suitable USB wall outlet. Typically 2 hours of charge time is needed to fully charge the light from a standard wall outlet if the headlamp is completely drained.
- When the light is charging the indicator light will show a red light. The indicator will turn green when a full charge is achieved. After initially removing the product from its packaging, charge it fully via the Micro USB Cord. Leaving your headlamp charging for extended periods of time will not harm the rechargeable cell.

PRODUCT WARNINGS

Do not use if broken, bent, cracked or damaged parts are present. Any headlamp that appears damaged in any way or operates abnormally must be removed from service. Inspect before each use.

- Do not disassemble the headlamp. The LED cannot be replaced.
- Do not operate headlamp near fire, flammable liquids or in gaseous or explosive atmospheres.
- Do not permit children to use headlamp unsupervised.
- Do not shine directly into eyes.
- Unplug unit before attempting any cleaning or maintenance.
- This device is water resistant but is not waterproof. It is not intended for underwater use or submersion. **Ensure the plastic guard is in tightly in place prior to contact with water.**
